WATER SITUATION & SHUTDOWN DATE

The Alberta Environment and Parks headworks storage is expected to end the season at about 1/3 of irrigation storage capacity, with Waterton and St. Mary Reservoirs well below winter target levels.

TID will stay with an allocation of **15” at the farm gate.**

The shutdown date has yet to be confirmed with our colleagues at SMRID and RID, but is expected to be either **October 4th or 11th**, and will depend largely on demand. If demand is low, we would rather have this volume higher in the system and available for spring 2020 startup. We will announce the last date of water delivery through our TID Notification System. If you would like text and/or email notifications, please sign up with the office (403-223-2148). You can also email your request with your contact information to tid@taberirrigationdistrict.ca.

THANK YOU! To all irrigators who gave 24 hours notice on and off. This helped maintain maximum efficiency and contributed to the extra inch of allocation added in July.

New Payment Method

TID is now accepting **e-transfers**. Send with your 4-digit customer number (beside your name) to:
tid@taberirrigationdistrict.ca

Note there is a \$1,000 limit on personal accounts and a \$3,000 limit on business accounts.

We also accept:

- cash, cheque, bank draft, debit/Interac
- online banking if you are with **ATB, 1st Choice Savings, BMO or ScotiaBank**

The due date to receive a 5% discount for early payment is **November 15**

The due date to avoid penalties for late payment is **December 31**

If you have more than one account, or you are paying for a parcel that is either in another name or has multiple names on the account, please let us know when you send or bring in your payment so that we can apply the payments to the correct account. Partially paid accounts will not receive the discount unless the whole balance is paid by November 15th.

TID Vision: *Our vision is a progressive and cohesive team, supporting the diverse needs of our water users through a heritage of efficient operations, a drive for continuous improvement, and a spirit of collaboration toward responsible water management within Specialty Crop Country*
