

June 18, 2021

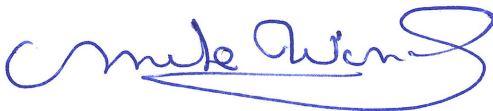

Dear Irrigators:

We are writing this message to inform you that the Taber Irrigation District has entered into discussions with the St. Mary River Irrigation District about amalgamating our two districts into one stronger and even more progressive district. With the prospect of expansion for both of our districts, it became apparent that operating as one district would lead to numerous efficiencies for our irrigators as we plan for our future to support agriculture in Southern Alberta. We are currently investigating with the Irrigation Secretariat what is required to proceed with an amalgamation and what a combined district would look like going forward.

Our intention is to hold in person open house information sessions in the months of July and August if Stage 3 of Alberta's reopening plan comes into effect as currently scheduled. We will provide additional information as soon as possible regarding dates and locations for these information sessions.

We trust this message will be met with interest and questions. We will communicate our information session dates as soon as we are able. In the meantime, please feel free to contact one of the TID Board Members if you would like to discuss this announcement.

On behalf of the TID Board,

Mike Wind
Chairman – Board of Directors
